

ISHA YADAV

Aspiring Full Stack Web Developer

Kanpur, Uttar Pradesh | 240886@kit.ac.in | GitHub: github.com/Isha240886

OBJECTIVE

Third-year B.Tech (CSE - AI/ML) student with a strong foundation in front-end web development (HTML, CSS, JavaScript) and hands-on practice in Data Structures & Algorithms using Java. Seeking a Full Stack Web Developer internship/fresher role to apply problem-solving skills and contribute to building efficient, user-friendly web applications while growing into back-end and full stack development.

TECHNICAL SKILLS

- Languages: Java, JavaScript
- Web Technologies: HTML5, CSS3, JavaScript (DOM manipulation, responsive design)
- Core CS: Data Structures & Algorithms (Java) - in progress
- Tools & Platforms: Git, GitHub, VS Code
- Currently learning: Back-end fundamentals for full stack development

PROJECTS

Calculator Web App | *HTML, CSS, JavaScript*

- Built a fully functional calculator supporting basic arithmetic operations using core JavaScript logic.
- Designed a clean, responsive UI with CSS and implemented button click events with DOM manipulation.

College Website | *HTML, CSS, JavaScript (In Progress)*

- Developing a multi-page website for college information including Home, About, Courses, and Contact sections.
- Focusing on responsive layout, semantic HTML structure, and interactive UI components.

EDUCATION

B.Tech, Computer Science & Engineering (AI/ML Specialization)

Kanpur Institute of Technology | 3rd Year (Ongoing)

CGPA: 7.6 (Semester 3), 7.5 (Semester 4)
